Right to Appeal

Students who have been classified as nonresidents have the right to a review of their classification (Title 5 Section 54010(a)). Any student, following a final decision of residency classification by the Dean of Enrollment Services, may make written appeal to the Vice President of Student Services within 30 calendar days of notification of the final decision by the District regarding classification.

Appeal Procedure

The appeal is to be submitted to the Dean of Enrollment Services who must forward it to the Vice President of Student Services within five working days of receipt. Copies of the original application for admission, the residency questionnaire, and evidence or documentation provided by the student, with a cover statement indicating upon what basis the residency classification decision was made, must be forwarded with the appeal.

The Vice President of Student Services shall review all the records and have the right to request additional information from either the student or the Admissions Office.

Within 30 calendar days of receipt, the Vice President of Student Services shall send a written determination to the student. The determination shall state specific facts on which the appeal decision was made.

Reclassification

A student previously classified as a nonresident may be reclassified as of any residence determination date. A residence determination date is that day immediately preceding the opening day of instruction for any session during which the student proposes to attend.

Residency Questionnaires must be completed for reclassification. Residency Questionnaires must be submitted to Admissions & Records prior to the semester for which reclassification is to be effective. Extenuating circumstances may be considered in cases where a student failed to complete the Residency Questionnaire for reclassification prior to the residency determination date. In no case, however, may a student receive a nonresident tuition refund after the second week of the semester or after 10% of a session, whichever is less. Written documentation may be required of the student in support of the reclassification request.

A questionnaire to determine financial independence must be submitted with the petition for reclassification. Determination of financial independence is not required for students who were classified as nonresidents by the University of California, the California State University, or another community college district (Education Code Section 68044).

An applicant shall be considered financially independent for purposes of residence reclassification if he or she meets **all** of the following requirements:

- Has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent in the calendar year the reclassification application is made and in any of the three calendar years prior to the year the reclassification application is made;
- Has not and will not receive more than seven-hundred fifty dollars (\$750) per year in financial assistance from his/her parent in the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification; and
- Has not lived and will not live for more than six weeks in the home of his/her parent during the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application.

A student who has established financial independence may be reclassified as a resident if the student has met the requirements of Title 5 Sections 54020, 54022, and 54024.

Failure to satisfy all of the financial independence criteria listed above does not necessarily result in denial of residency status if the one-year requirement is met and demonstration of intent is sufficiently strong.

Financial dependence in the current or preceding calendar year shall weigh more heavily against finding California residence than financial dependence in the preceding second and third calendar years. Financial dependence in the current or preceding calendar year shall be overcome only if (1) the parent on whom the student is dependent is a California resident or (2) there is no evidence of the student's continuing residence in another state.

The Dean of Enrollment Services will make a determination, based on the evidence and issue notice to the student not later than 14 days of receipt of the petition for reclassification.

Applicants/students have the right to appeal according to the procedures above.

Non-Citizens

The District will admit any non-citizen who is 18 years of age or a high school graduate.

If non-citizens are present in the United States illegally or with any type of temporary visa, they will be classified as nonresidents and charged nonresident tuition unless they meet the exceptions contained below.

If, for at least one year and one day prior to the start of the semester in question, a non-citizen has possessed any immigration status that allows him/her to live permanently in the United States and he/she meets the California residency requirements, the applicant/student can be classified as a resident.

Any students who are U.S. citizens, permanent residents of the U.S., and aliens who are not nonimmigrants (including those who are undocumented), may be exempt from paying nonresident tuition if they meet one of the following requirements:

- Total attendance of, or attainment of credits earned while in California equivalent to three or more years of full-time attendance or attainment of credits at any of the following: (a) California high schools; (b) California high schools established by the State Board of Education; (c) California adult schools established by either a county office of education, unified or high school district, or the Department of Corrections and Rehabilitation; (d) campuses of the California community colleges; or (e) a combination thereof; or
- Three or more years of full-time high school coursework, and a total of three or more years of attendance in California elementary schools, or a combination of California elementary and secondary schools.

Additionally, the following requirements must be met:

- Graduation from a California high school or attainment of the equivalent thereof; or completed an associate degree from a California Community College; or completed the minimum requirements at a California Community College, or fulfill the minimum transfer requirements established for the University of California or the California State University for students transferring from a campus of the California Community Colleges;
- Registration or enrollment in a course offered by any college in the District for any term commencing on or after January 1, 2002;
- Completion of a questionnaire form prescribed by the Chancellor of the California Community Colleges and furnished by the District of enrollment, verifying eligibility for this nonresident tuition exemption; and
- In the case of a student without lawful immigration status, the filing of an affidavit that the student has filed an application to legalize his/her immigration status or will file an application as soon as he/she is eligible to do so.

Documents and information obtained in implementing this exemption are confidential.

The initial residency classification will be made at the time the student applies for admission. Students may file residency questionnaire forms through the third week of the semester to request a review of their residency status. Final residency determination is made by the Dean of Enrollment Services. Students may appeal the decision.
