Catalog Description

FIRE 001B is part 2 of 2 courses that meet the requirements of FIRE 001 (Principles of Emergency Services). This course provides students with: an understanding of organizations and functions of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; specific fire protection functions; introduction to fire protection systems; introduction to fire strategy and tactics; and life safety initiatives. Completion of both FIRE 001A and FIRE 001B will meet the Fire and Emergency Service Higher Education (FESHE) model curriculum for Principles of Emergency Services.

Entrance Skills

Successfully completed FIRE 001A Principles of Emergency Services.

Requisite Course Objectives

FIRE 001A-Analyze and describe the differences between the certificate, two-year, four-year degree programs, and state certification.

FIRE 001A-Describe the educational requirements, duties, and information sources for various occupations in fire protection.

FIRE 001A-Identify the basic components of fire as a chemical reaction, the major phases of fire, and the main factors that influence fire spread and fire behavior.

FIRE 001A-Identify the effects of fire on the environment and the historical efforts made to protect society.

FIRE 001A-Identify the major organizations that contribute to fire protection.

FIRE 001A-Define and describe the purpose and scope of fire departments.

FIRE 001A-Identify the types of common fire department apparatus, equipment, and personal safety equipment used for fire fighting.

FIRE 001A-Identify the various codes, standards, ordinances, and regulations that affect fire protection.

FIRE 001A-Identify the various types of public and private fire protection equipment and systems.

FIRE 001A-Define the common elements of a fire prevention bureau.
 FIRE 001A-Identify the various applications of computers in the fire service.
 FIRE 001A-Define fire fighting strategy and tactics.
 FIRE 001A-Describe the basic elements of fire fighter safety and survival.

Entrance Skills

ADVISORY SKILLS: Write organized summaries and responses to readings.

Requisite Course Objectives

ENG 061-Use theses to organize paragraphs into coherent analyses.
 ENG 061-Demonstrate the ability to think critically and express ideas using various patterns of development.
 ENG 061-Recognize features of style such as purpose, audience and tone integrate these elements into academic and professional writing.
 ENG 061-Demonstrate the ability to use research skills including library resources such as books, periodicals, electronic databases and online resources such as the internet.
 ENG 061-Demonstrate the ability to read and respond in writing beyond the literal interpretation of the text.
 ENG 061-Utilize a handbook to properly cite and document source material in MLA format.

Course Content

- I. Building Design and Construction
- II. Fire Detection and Suppression Systems
- III. The Role of Public and Private Support Organizations
 - A. Local
 - B State
 - C. Federal and National
 - D. International
- IV. Fire and Emergency Services Equipment and Facilities
- V. Management
 - A. Organizational Cultures
 - B. Emergency Operations
 - B. Organizational Structure of Fire and Emergency Services

Course Objectives

	Objectives
Objective 1	Analyze and describe the differences between the certificate, two-year, four-year degree programs, and state certification.
Objective 2	Describe the educational requirements, duties, and information sources for various occupations in fire protection.
Objective 3	Identify the basic components of fire as a chemical reaction, the major phases of fire, and the main factors that influence fire spread and fire behavior.
Objective 4	Identify the effects of fire on the environment and the historical efforts made to protect society.
Objective 5	Identify the major organizations that contribute to fire protection.
Objective 6	Define and describe the purpose and scope of fire departments
Objective 7	Identify the types of common fire department apparatus, equipment, and personal safety equipment used for fire fighting.
Objective 8	Identify the various codes, standards, ordinances, and regulations that affect fire protection.
Objective 9	Identify the various types of public and private fire protection equipment and systems.
Objective 10	Define the common elements of a fire prevention bureau.
Objective 11	Identify the various applications of computers in the fire service.
Objective 12	Define fire fighting strategy and tactics.
Objective 13	Describe the basic elements of fire fighter safety and survival.

Student Learning Outcomes

Upon satisfactory completion of this course, students will be able to:

- | | |
|-----------|---|
| Outcome 1 | Discuss the basic elements of fire fighter safety and survival. |
| Outcome 2 | Discuss the legal considerations at emergency scenes. |

Methods of Instruction

Method	Please provide a description or examples of how each instructional method will be used in this course.
Demonstration, Repetition/Practice	Framework required for each type of report will be discussed and presented in class. Students will use that framework to practice writing various types of fire service reports listed in the course objectives. Students will write various types of fire service reports multiple times to demonstrate format and content correctness.
Technology-based instruction	Review simulation videos and respond to related activities.
Role Playing	Mock oral board interviews.
Participation	Group discussions and interaction. Field trips Participate in classroom or through discussion postings
Lecture	Classroom lecture focused on specific fire service reports supported by facilitated learning activities.
Individualized Study	Independent reading assignments.
Discussion	Students will participate in small facilitated group discussions where they will review classmates written report narratives. Peer reviews will be designed to promote positive feedback as outlined in the text book.

Methods of Evaluation

Method	Please provide a description or examples of how each evaluation method will be used in this course.	Type of Assignment
Written homework	Resume assignments and chapter review assignments. Read various types of fire service report narratives that will include EMS incidents, fire emergency incidents, fire investigation incidents, fire inspection incidents.	In and Out of Class
Oral and practical examination	Mid-term oral presentation.	In Class Only
Student participation/contribution	Group discussions from lecture and from student oral presentations.	In Class Only
Mid-term and final evaluations	Mid term oral presentation. Multiple choice final exam. Prepare one complete fire service report narrative from multiple case study scenarios outlined in the text book or from scenario based videos.	In and Out of Class
Tests/Quizzes/Examinations	Complete 7 Chapter quizzes.	Out of Class Only
Group activity participation/observation	Mock interviews completed in class or via ConferZoom for online modality.	In Class Only
Presentations/student demonstration observations	Student video presentations conducted in class or viz ConferZoom for online modality.	In Class Only
Critiques	Student peer assessments conducted in discussion assignments for online class.	Out of Class Only

Assignments
Other In-class Assignments

1. Participation
2. Observation
3. Group discussion/postings online

4. Practice skills
5. Reading of handouts and student manual

Other Out-of-class Assignments

1. Reading Assignments (2-3 hours per week)
 - a. Textbooks
 - b. Study guides
2. Read one chapter per week include 25-30 pages weekly
 - a. Complete the review questions.
 - b. Submit completed assignment at the beginning of the first class meeting each week.
3. Writing (4-6 hours preparation for research)
 - a. Essays, Research papers, Analyses, Reports. Complete a 5-page research paper identifying incidents of firefighter injuries or death related to the lack proper safety practices.
 - b. Identify causes, lessons learned and corrective actions to improve firefighter safety.
4. Critical Thinking (1-2 hours per week)
 - a. Summarizes the problem/question/work assignment.
5. Complete library assignments for research paper
6. Prepare oral or video based presentation (1 hour)
7. Prepare term project (2-3 hours)

Instructional Materials and Resources

If you use any other technologies in addition to the college LMS, what other technologies will you use and how are you ensuring student data security?

Course is delivered through the college's LMS.

If used, explain how specific materials and resources outside the LMS will be used to enhance student learning.

Course is delivered through the college's LMS.

Effective Student/Faculty Contact

Which of the following methods of regular, timely, and effective student/faculty contact will be used in this course?

Within Course Management System:

Timely feedback and return of student work as specified in the syllabus
Discussion forums with substantive instructor participation
Regular virtual office hours
Private messages
Online quizzes and examinations
Video or audio feedback
Weekly announcements

External to Course Management System:

Direct e-mail
Posted audio/video (including YouTube, 3cm mediasolutions, etc.)
Teleconferencing
Telephone contact/voicemail

Briefly discuss how the selected strategies above will be used to maintain Regular Effective Contact in the course.

Regular effective contact will be through emails, weekly conferences, weekly discussion and peer review assignments, virtual video conferencing, routine announcements throughout the week and virtual office conferencing.

If interacting with students outside the LMS, explain how additional interactions with students outside the LMS will enhance student learning.

This course will be delivered through the college's LMS.

Other Information

Provide any other relevant information that will help the Curriculum Committee assess the viability of offering this course in an online or hybrid modality.
