

M&O Green Operations Goals

Build on the current efforts

- **Continue and add to the green cleaning efforts**
- **Continue to look at reductions in water usage through support of the landscape master plan and routine maintenance**
- **Continue to find more efficient replacements for parts**

New efforts

- Analyze data gathered, newly available software and metering to track power usage
 - Power usage against occupancy
 - Power usage against current practices
 - Power curve against time of day
 - Load shed
 - Ft² consumption between similar buildings
 - Ft² consumption between similar systems

More new efforts

- **Feasibility Studies for**

- Food Waste Diversion, Beeps
- Green Waste to Bio-fuel, MTC
- Indoor and Outdoor Air Quality Improvements
- Team with ASCOD for recycling awareness and improvement
- e-Recycle events
- Awareness through media

What else?

- **New Facilities and New Campuses**
- **New Technology**
- **New incentives**

KEEP UP TO DATE
